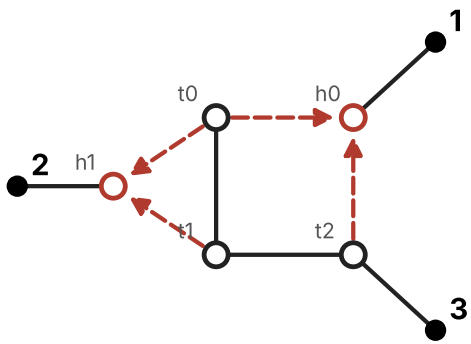
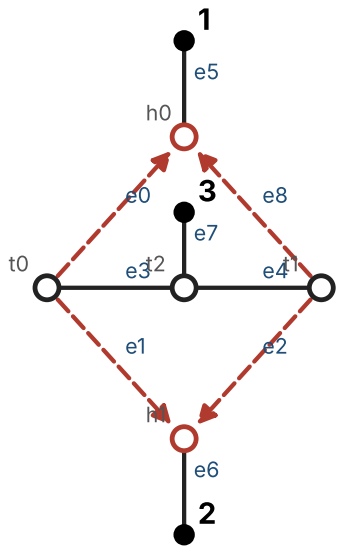
The six reduced trinets with a strict level-2 three-blob (up to leaf relabelling)
dashed red arcs = reticulation edges; red circles = reticulation vertices

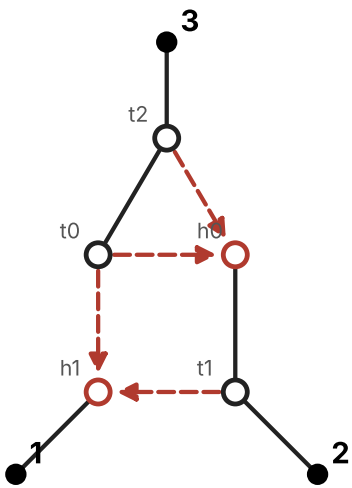
L2-0: coincides on Θ_0



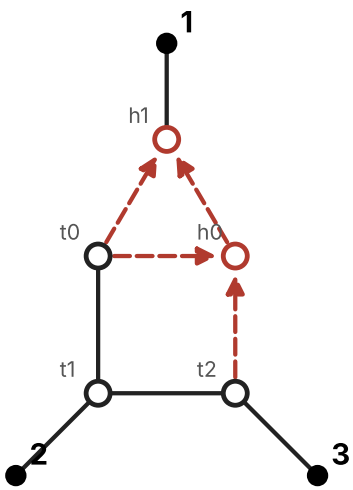
L2-1 ($K_{2,3}$): coincides on Θ_0, embeddable, $\alpha \geq \beta$



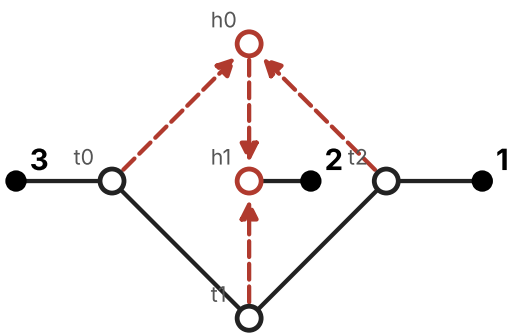
L2-2: coincides on Θ_0

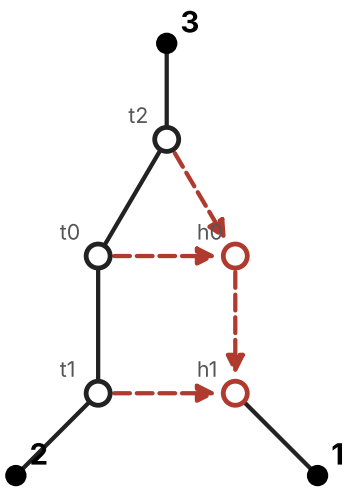


L2-3 (stacked): distinguishable



L2-4 (stacked): distinguishable





L2-5 (stacked): distinguishable
